Admission 10c & 35c

Miss Hilda Hughes, formerly of Elba, who now resides in Seattle, Washington, underwent an appendectomy operation at Columbus hospital on February 26. She is expected to be back home at an early date. She sends her school friends in Elba best wishes and hopes to visit her old home in the near future. In case any friends wish to write her, address is: 5932 Occidental Ave., Apt. 94, Seattle, Washington.

Mr. and Mrs. A. M. Dubose who have been residing in Houston, Texas, are visiting relatives and friends in this section. They are planning to locate somewhere in Florida as soon as the winter rush is over.

Mr. and Mrs. J. D. Whitman were among the visitors to Montgomery Tuesday.

Roy King returned to his home in Elba last week after completing his Naval assignment and receiving his discharge. He served 25 months in the Pacific Islands in the Pacific. Friends are glad to have him at home again.

ELBA STUDY CLUB MET

MARCH 7 IN HOME OF MRS. F. A. FARRIS

The Elba Study Club was delightfully entertained on Thursday, March 7, in the home of Mrs. F. A. Farris, with Mrs. J. F. Brunson, co-hostess. The home was artistically decorated with narcissi and other spring flowers.

The meeting was called to order by the president, Mrs. J. M. Kimmy. The roll was called and the minutes of the February meeting were read by the secretary, Mrs. W. C. Braswell. A splendid literary report for Mrs. J. O. English, who was absent. Mrs. Brunson reported that she was conferring with other civic clubs in the interest of civic improvements. She also announced that the State Federation Convention will be held in Tuscaloosa on April 16-17 and that the club should send a delegate.

Mrs. J. M. Garrett gave the report for the nominating committee which resulted in the election of the following officers for the coming club year: President, Mrs. F. A. Farris; vice-president, Mrs. W. C. Braswell; recording secretary, Mrs. E. E. Farris; corresponding secretary, Mrs. K. M. Bentley; treasurer, Mrs. J. O. English; parliamentary, Miss Mabel Brunson.

After the business session for the afternoon was announced by Mrs. J. M. Kimmy, Mrs. Floy treated the subject, "The Alcatraz," by giving a charming book review of "Prokaka's Wife" by Helen Wheaton. Mrs. Gustie Hutchinson gave an interesting and comprehensive address on Alaska, illustrating with a map.

Following the program, the hostesses served a delectable salad course to members present.

Mrs. J. V. Mays, of Montgomery, spent Sunday and Monday in Elba. She is the daughter of her grandfather, Mrs. Shelby Osteen, of Troy, who is doing fine following an appendix operation.

Friends will be glad to learn that Mrs. Hollan Harrison, who has been quite ill in a Troy hospital for some time, is somewhat improved and hopes to be able to return to her home soon.

FUTURE FARMERS MAKE BUSINESS MEETINGS AT TEACHERS' MEETING HERE THURSDAY

On Monday night, March 18th, the Elba Chapter Future Farmers of America met with the other three chapters of the county in the regular monthly meeting of the district. At this meeting plans were worked out for each chapter to take part in the annual softball tournament to be held some time before school closes. Plans were also made for the public speaking contest to be held at Elba on Tuesday, March 26, at 11 a. m.

Present at this meeting were members of the civic clubs of Elba and Enterprise for the purpose of working out final details for the coming County Fair Stock Show to be held at Elba Auction Barn on Monday, April 8, from 10 a. m. to 2 p. m. Attending the meeting from Elba and helping to make plans for the show were Messrs J. C. Dixon, John Garrett, Tommie Thompson, Jake Bonneau, David Young and E. P. Giger.

This being the first joint show to be held in the county, members plan to make the show outstanding in every way. The boys and girls showing and the public who will attend.

SCHOOL CHILDREN ARE BEING INSPECTED BY THE COUNTY HEALTH OFFICER

School teachers are doing a good job of selecting children who are having difficulty in school and referring these children to the health department. Children who have symptoms of any type of infection of eyelids, skin, etc., or who show evidence of eyestrain or hearing difficulty, and other handicaps are being inspected by the health officer.

A report is to be mailed to the parents. In many cases the doctor prescribes the child from doing good work in school. In some cases the defect is not serious and with learning, but also prevents proper growth.

Most parents will give their children the care needed if they understand the need and learn of the trouble their child is having. The health department can inspect more children than they can report on. Help is needed for sending these reports to the parents.

Anyone who can volunteer to give one or two hours a week to this work for helping Coffee county children are asked to notify the health department at Elba or Enterprise.

GARLAND WEIDNER, M. D. Miss Sally May Simmons, of Cleveland, Ohio, is spending some time with her aunt, Mrs. R. C. Bryan, and Mr. Bryan, at their home on Davis street. She visited relatives in Dallas, Kansas City and San Antonio, Texas, before coming to Elba.

Mrs. Hollan Harrison, who had been receiving treatment at a Troy hospital for 21 days, returned to her home in West Elba Sunday. Friends wish her a complete recovery.

MRS. W. J. NELSON DIES AFTER A SHORT ILLNESS

Mrs. Sletty Mitchell Nelson, 64 years of age, wife of Mr. W. J. Nelson, well known resident of Burnt-Oak community, died at her home Monday afternoon, March 11, following a short illness. She was a life-long resident of that community and had many friends.

Surviving besides her husband are seven daughters: Mrs. Sarah Bryant, Mrs. Cora Chandler, Mrs. Estell Chandler, Mrs. Elsie V. Hudson, Mrs. Jessie Petty, Misses Ella and Maggie Nelson; three sons: A. R. Ivey and Barrie Nelson.

Funeral services were held at Pine Level Tuesday afternoon, March 12, at two o'clock with the Rev. Jim Richards officiating. Burial was in the church cemetery. Bonneau-Jeter had charge of funeral arrangements.

SERVICES AT DAMASCUS BAPTIST CHURCH

We will have our regular services at Damascus Sunday morning, March 24, at the usual hour. We urge everyone to attend these services. Then on Sunday night we have planned a special service picturing the incidents in the life of Christ on through His death, burial and resurrection and ascension. Don't miss this service.

A. W. Barker, Pastor.

Mr. and Mrs. W. R. Billingsley, who have made their home at Greenwood, Miss., for the past several years, are spending some time with Elba relatives.

Lieutenant (jg) Grady Rhodes, who is in the U. S. Navy, is on duty at the Naval Air Station at San Pedro, Calif., and is visiting relatives in Elba for a few days before going to New Orleans, where he has new assignment.

ELBA, ALABAMA, THURSDAY, MARCH 21, 1946

NUMBER 41

EDMONDSON—COLLIER WEDDING SOLEMNIZED AT METHODIST CHURCH

A wedding of interest to a large circle of friends in Alabama and Georgia is that of Miss Margaret Edmondson and Edwin Paul Collier which was beautifully solemnized at four o'clock Saturday afternoon at the Methodist Church in Elba. Rev. O. M. Fox, pastor of the Baptist Church was the officiating clergyman, using the double ring service, assisted by Rev. Wm. M. Sproule, pastor of the Methodist Church.

Decorations were of unusual beauty. The choir loft was banked with stately ferns, Southern omixes and other greenery. An altar was formed of standard baskets of gladioli, lilies and spirea, interspersed with white candles. The chancel was effectively decorated with omixes and ferns, outlined with sprays of spirea and magnolias. Altar vases marked the chancel entrance.

Prior to the ceremony a musical program was rendered by Mrs. W. J. King, Miss Sletty Mitchell Nelson, Betty Jo Prescott wearing a dainty white frock, and Bobby Polson dressed in a beige wool suit, Mrs. Kingsford softly played "To A Wild Rose." Other selections were: "Clair de Lune (Debussy)," "Yen-Lai Love Song (Nevin)," "Lebe-Weimars" by the Virgins. Soloists were Miss Joan Clark, vocalist, sang "I Love You Truly" and "Because."

The traditional wedding ceremony was used for processional and recessional. Serving as ushers were Fred Clark and Sammy Inman. Sam Collier, of Columbus, Ga., attended the bride as best man.

Mrs. James Martin, sister of the bride, was matron of honor and the bride's only attendant. Her costume was fashioned of grey wool crepe. She wore a small pink hat, with trim of matching blue and white.

The bride was escorted to the altar by her father, S. S. Edmondson. She was attired in an attractive costume of soft blue wool crepe.

Good white lace train, with flowing veil, white gloves and other matching accessories. She carried a white satin prayer book surrounded by a white yellow-throated orchid and showered with sweet peas and satin ribbons.

Mrs. Collier is the daughter of Mr. and Mrs. S. S. Edmondson of Elba. She is a graduate of Elba High School and has held a position in Montgomery with Swift & Company for the past several years.

Mr. Collier, son of Mr. and Mrs. George Collier, of Elba, is a graduate of Elba High School and attended University of Alabama before entering military service. He was recently discharged after serving thirty months overseas.

Mrs. Collier will make their home in Auburn where he is attending A. P. L.

MISS BAVARO MARRIES CAPTAIN CHARLES MIZELL

Friends in Elba will be interested in announcement of the marriage of Miss Lena Rose Bavaro, of Highland Point, N. Y., to Captain Charles M. Mizell, of Samson, son of Mrs. Lina B. Mizell and the late Frank J. Mizell.

The wedding took place in Holy Trinity Chapel in West Point, N. Y., on Sunday, January 20, with Rev. J. Moore officiating.

Recently discharged from the Nurse Corps of the Army, the bride is a graduate of Highland Falls public schools, Ladycliff College and Englewood Hospital School of Nursing. She served 12 years in the Army Nurse Corps and was eight months in England, France, Belgium, and Germany with the First Army.

Captain Mizell attended Samson schools, is a graduate of United States Military Academy at West Point, class of 1942, and served 12 months overseas in the European theatre of operations with the First and Third Armies in the First Artillery unit.

After their honeymoon the bride and groom went immediately to Camp Polk, La., where they have been assigned.

A few days, the captain was ordered to go to New York to enter training before assuming duties as English professor at West Point Military Academy.

See "True story of Rickenbacker's rescue."

LIONS CLUB WILL ASK FOR WEDDING MEETINGS AT ELBA CHURCH OF CHRIST

"Help Keep Our City Clean," is the slogan that has been adopted by the Lions Club in an effort to get Elbians to cooperate with City officials in cleaning up the streets, alleys, vacant lots, and all other unattractive places in the city. A committee will call on all business houses and asking them to abandon the practice of sweeping trash out in the streets and alleys. Nothing detracts from a city more than waste paper and other refuse scattered all over streets and vacant lots. The city will also cooperate in the "clean-up" movement by removing all trash promptly. It is pointed out that a nice, large covered trash or garbage can, such as Postmaster English has in front of Postoffice, is one of the finest ways to help keep the city clean.

It does not matter how you go about the job, just so you get it done. The Lions Club is now "Keep the City Clean." Start right now and keep it up.

CONSERVATION FARMING

By G. L. Edwards, Soil Conservationist

Does soil conservation pay? Ask any of the 194 farmers who have soil conservation plans on their farms and have been carrying out most of the practices as recommended by the Virginia Soil Conservation District. Look at the records and see how many of these farmers have made money.

Here are some of the outstanding accomplishments of the district. Forty farmers planted 30,000 pounds of blue lupine seed last fall and many more planted winter peas. A shortage of seed was taken part in the legume acreage, but several farmers are planning to save some seed for spring which will help the situation this fall.

Outs for grazing and grain were planted on nearly all of the farms. Some good results were obtained by proper fertilization and early planting. Some good results can be seen on the farm of Buck Campbell, J. G. Young, Brooks and Paschal, F. M. Farris.

MISS YOUNG AND MR. COOK WED WEDNESDAY AT ELBA CHURCH OF CHRIST

Simplicity and beauty, as well as unusual interest marked the marriage of Miss Nell Young to Drexel Cook, both of Elba. The vows were solemnized on Sunday, March 17, at five o'clock at the Elba Church of Christ. Minister W. T. Grier, of Rose Hill, performed the double ring service in the presence of a large assemblage of relatives, friends, and out-of-town guests.

The church interior was simply but beautifully decorated. In the background were two improvised archways, gracefully decorated with garlands of omixes. A large basket of white gladioli and spirea was the central decoration. The altar was banked with massive ferns, palms, amixes and spirea, formed a rich green background for the couple. Easter lilies and white gladioli, radiance from candles burning in the lighted second archway. A large basket of white candles outlined the altar.

A program of nuptial music was presented by Jack Dickert prior to the ceremony. "Love's Sweet Song" and "The Rose Tree" were included in the selections. Mrs. Edwin Cooper sang "The Rose Tree" and "Because." The traditional marches were used for processional and recessional. Led by the bride and groom, the bride and groom were escorted to the altar by the bride's father, Mr. J. T. Young and the late Mr. J. T. Young.

The bride entered with her brother, John Young, by whom she was escorted to the altar. The bride was attired in a white gown with a long train and a small pink flower in her veil. She wore pink gloves, and other accessories were in harmony with the theme.

Mrs. Cook is the third daughter of Mr. J. T. Young and the late Mrs. J. T. Young. She is a favorite in the young social set, and is popular with a wide circle of friends.

Mr. and Mrs. Cook are on a brief wedding trip to points on the coast of Florida.

One-Variety Community Plan Of Cotton Production Shows Many Advantages And Benefits For Farmers

A one-variety cotton community is described as a group of growers and ginners in a gin district, county or larger area, who have organized to improve the yield and quality of their cotton crop by following the one-variety community plan of production.

Experience has shown that many advantages and substantial benefits have come to farmers who have followed the one-variety plan of production. Some of the more outstanding of these are:

It provides the most economical way to produce uniform, high-quality cotton in commercial quantities, for which there has always been a good demand at premium prices.

It is the only practical way to develop and maintain local supplies of pure planting seed, and to make this seed available from year to year to all of the growers in the community at a reasonable price. It is the most effective way to discourage the introduction of seed of miscellaneous untried varieties until their superiority over the adopted variety has been officially demonstrated.

Crossing of varieties in the field by bees and other insects and mixing of the seed and lint at the gin are avoided if only one variety of cotton is grown and ginned in the county.

Better adjustments of ginning machinery can be maintained with only one-variety cotton, thereby making it easier for the ginner to preserve the quality of the cotton. A uniform way for picking can be established and maintained more easily where only one variety is grown in the community.

Two government grade and staple service is available to growers in organized one-variety communities. This service furnishes the growers with an unbiased classification of the quality of their cotton.

To secure additional marketing advantages, the community grows cotton to produce the improved cotton so that large, even-running lots of the one-variety cotton can be made available to the trade from year to year.

When the community builds a reputation for commercial quantities of quality cotton, buyers are attracted, competitive bidding is stimulated, and the growers are in a position to bargain for a premium for the better cotton.

Labels of the adopted variety can be labeled with an identification mark or tag to keep farmers in neighboring mixed variety districts from selling their inferior cotton in the community and thus eventually injuring the reputation of the community for good cotton.

Larger yields per acre are obtained with pure seed of the improved varieties adopted in the one-variety communities. Pure seed of the improved varieties is better for oil-milling purposes, and some mills are now paying more for this higher-grade seed.

Where groups of growers have organized for the improvement of their cotton crop, the cooperation and assistance of Government, State and other agencies may be utilized to the best advantage of all concerned.

The following steps are necessary to set up a one-variety cotton improvement program:

1. THE ONE-VARIETY COMMUNITY: A One-Variety Cotton Improvement Community is a group of farmers in a natural community or larger area organized for the purpose of improving the quality and yield of their cotton crop.

2. OFFICERS: The officers of a One-Variety Cotton Improvement Association are: president, vice-president and secretary-treasurer. These three officers with two other members elected to serve with them constitute a Community Cotton Improvement Committee.

3. MEETINGS: The officers are expected to hold at least two meetings of all the cooperative growers per year. One meeting is to be held in the fall or early winter to make plans for planting seed and to check up on the past year's work. Another meeting should be held about July 1st to make applications for the classing service and to make preparation for ginning, saving seed, and arrangements for purchase of breeder seed for the next year.

4. ADOPTED VARIETY: On the basis of Experiment Station results, the members of the community should adopt a variety by majority vote.

5. SEED RENEWAL PLAN: The biggest job of the one-variety community is obtaining good breeder seed and maintaining a supply of first-year seed at a reasonable cost to the farmers. This is done by one of two methods:

(a) Each grower buys enough breeder seed to plant one-tenth, or more, of his acreage each year and saves this first-year seed at ginning to plant his crop next year. By this means the cooperating growers in the community have the best seed produced at a small cost to the growers. This prevents having a larger number of varieties brought into the community each year.

(b) Another method is to select enough farmers as multipliers of breeder seed to produce enough seed for planting all the cotton of the members of the one-variety organization. These multipliers plant their entire crop each year in breeder seed and sell or swap them with their meetings and advise them as to varieties, seed saving, etc. Many counties have one or two meetings a year in the county.

6. CLASSING SERVICE: The application for classing service should be made about July 1. The deadline is August 1. Delay in making application often causes supplies to reach ginner after ginning begins.

7. CONFERENCE: The prices should encourage the one-variety community organizations to bring their organization up to date as follows:

(a) Keep list of officers.

(b) Keep list of cooperative ginners and secure their cooperation to send in all samples.

(c) Keep list of all members, giving approximate acreage planted to cotton.

(d) Arrange gin days for breeder seed.

(e) Check the grade and staple reports relative to short staple lengths, and rough preparation.

(f) Purchase of breeder seed for coming year.

Better Times From Rayon

Use of rayon for cords in tire-making promises a tire that will give increased mileage and operate with so much less internal friction than when cotton is used that it will reduce gasoline consumption, P. W. Litchfield, chairman of the Good-year Tire and Rubber company, announced. It will be some time before such tires are available for passenger cars, he states, as rayon manufacturers are unable to produce enough material to meet demands and all that is available is going into truck tires.

Money Nutrients

Honey has in limited quantities all of the important constituents of the vitamin B complex, vitamin C, and amino acids.

Honey places no tax on the digestive system.

County Agent's Office of Officers of All the Cotton Improvement Associations in the County

Other agents hold two meetings each year of all officers in their respective communities. The meetings are held on March 1st at the home of Mrs. Clyde Jones. The meeting was opened with a song, then devotional. The secretary called the roll. Two new members were admitted.

The meeting was turned over to Miss Mamie B. Mathews and she gave an interesting lesson on canning problems and canning equipment. The meeting was adjourned until next month. Refreshments were served. Then games were played.

Mrs. D. B. Coleman, Rep.

American Indian

Origin of the American Indian has long been a major ethnological problem. Most authorities agree that they were Mongolians, coming here from Asia by way of the Bering Strait. Other anthropologists, however, claim that the American Indian originated in Malaysia. In 1924, when a law was passed providing that all non-citizen Indians born within the territorial limits of the United States were hereby declared citizens of the United States, they were given the right to vote.

Mad Fox Attacks Mother and Children on Enterprise Street

(Enterprise Ledger, March 15) A mad fox attacked Mrs. Mabel Oliver, wife of Noah Oliver, and her two children, David and Carolyn, early last Friday evening within the city limits of Enterprise. Mrs. Oliver and her two children were walking along College Street about 7:00 p. m., about 100 yards from the home of L. I. Murphy, when attacked by the fox. The mother was bitten twice and little David, four years old, was bitten on the arm. Carolyn, three years old, was not injured. Mrs. Murphy says he heard their cries but thought it was only children playing. A few minutes later they reached his home and told him what had happened. Mr. Murphy judged from their description that the animal was a fox and close inspection of the tracks at the scene of the attack proved his assumption correct.

Blind Able to See By Latest Device

Can Tell Colors by Feeling Reflections of Light.

SANTA MONICA, CALIF.—A revolutionary electronic device which enables the totally blind to "see" colors by feeling the reflections of light was disclosed by its inventor, Byron Brown.

The device, perfected by Brown, an electrical engineer, enables blind persons to "feel" objects in front of them when they don an eyeglass equipped with light-sensitive selenium. It transmits sound to a headset behind the ear when obstructed.

"He can judge the height, weight and color of persons in front of him," Brown said. "He can tell when automobiles are coming and when they are of light or dark color. He can even tell when the moon comes out from behind a cloud."

It takes a little time to get used to the device, Brown said. "The first time you use it, you should be able to thread his way in and out of traffic and have a model fashion of modern wool crepe."

His flowers were sweet peas in corsage. Mrs. Corley was gowned in aqua crepe and gold, with corsage of panicles. Miss Edmondson was lovely in black crepe, with their trim and dark corsage.

Mrs. David E. Young wore light blue crepe. A green and white color note was used in the living room where smilax, baskets of Easter lilies, iris, spirea and wedding bells formed attractive decorations.

Miss Lottie Portner, wearing a model of black faille, directed guests to the bride's register, presided over by the honoree's sister, Mrs. Braxton Ingram, who was dressed in beige crepe. Mrs. Roger Winston, in black crepe, lace trimmed, invited guests to the dining room. There, Jack Dyer, in white and pink roses, and encircled in sprays of greenery and carnations. A shower of white ribbons extending from the centerpiece to either end of the table ended in small nosegays. Tall

At eight the selenium may be attached to a flashlight held before the wearer. Brown said. Obstructions in the beam are transmitted to the battery cells.

British Plant Workers Fall to About 800,000

LONDON—The number of British employed in the aircraft industry dropped almost to 800,000 in September and is still decreasing rapidly, the ministry of aircraft production said recently.

The ministry said that "a much smaller number" than 1,000,000 planes of all types remained on order. Commenting on the society of British aircraft construction statistics that 10,300 planes were on order and that 988,000 workers were employed in the British aircraft industry, the ministry said that the figures referred to the British position of last August.

Child Mortality Is Cut 50 Per Cent in Russia

MOSCOW—Child mortality in the Soviet Union has dropped to less than half the 1940 figure while the birth rate has increased 35 per cent, Maria Kovrigina, vice minister of health, told a Moscow health conference.

Despite revolutionary changes of the last 30 years and enormous losses through two wars, revolution and famine, medical science has reduced still births and miscarriages, she said. At the same time the population has continued to grow, most of it remaining close to birth, where a high birth rate continues to prevail.

Yanks in Germany Are Ready for Food Rioting

NUERNBERG, GERMANY.—Gen. Joseph T. McNarney, successor to Gen. Dwight D. Eisenhower as American commander in Europe, said that the United States army was ready to handle food riots during the winter.

General McNarney said there might be food riots, but he believed they would be isolated.

"In any case we have enough soldiers on hand to handle anything that may arise," he said. "The whole idea is not to expect the trouble to amount to anything."

Justice Blind? No, Nor Funny, Either, Court Shows

VANCOUVER, B. C.—Justice is definitely not to be laughed at in Justice A. M. Manson's courtroom here—nor even smiled at. During a divorce hearing, Manson criticized the conduct of the soldier, respondent in the case, as "disrespectable," and commented that he "ought to be a menace to Canada's future."

A man waiting to testify smiled, and the judge ordered him from the room. "I do not permit smiling in my court, by any means," he declared.

No Anti-Freeze? Just Use Vodka, Proves Effective

TIENTSIN, CHINA.—Anti-freeze fluid for automobiles was scarce when a hard freeze hit here but two U. S. information service officials, James L. Stewart, Los Angeles, and Richard W. Beckman, Ames, Iowa, solved the problem.

They emptied three bottles of the potent, cheap and almost undrinkable vodka sold here into their auto radiator. It worked.

Year-Round Agriculture

Fertile volcanic soil, extensive plains easily cultivated and well watered by rainfall and by irrigation from mountain streams make possible the all-year agriculture that has supported Java's brown-skinned millions. The growth of population has gradually necessitated increasing the cultivation of rice for native consumption, reducing the land available for profitable sugar, rubber, pineapple and other export crops.

ALABAMA

—An Agricultural State—

NEEDS

Joe Poole

For Governor

In his opening campaign statement Joe Poole presents a clearcut 22-point platform for the progress of Alabama. Such a statement, he feels, is an "inviolable covenant between you and your governor."

In 20 years of public life, Joe Poole never broke a campaign promise. In brief—

JOE POOLE PLEDGES:

* To improve Agriculture, Forestry and Conservation by intelligent research, education and legislation.

* To strengthen Educational facilities and opportunities; higher salaries for classroom teachers.

* To reduce property taxes. No additional tax burdens; \$5 auto license tag fees; no tax on gasoline used by farm tractors.

* Aid to Veterans in securing housing, hospitalization, education and vocational training.

* Fairness to Labor and prompt efforts to settle problems leading to industrial strife.

* No waste or favoritism in expenditure of public funds.

* Ever-increasing program to protect those who can't protect themselves.

* To maintain and improve high leadership in Public Health Service.

* To foster and protect "Merit System" of public employment.

* To improve state highway system, especially farm-to-market roads.

* To encourage electrification of farms in every way possible.

* To favor extension of rural telephone service.

* To conserve and develop without waste or exploitation Alabama's great natural resources.

* To cooperate with federal and local governments in stimulating employment.

* To give every possible assistance in relief of urban and rural housing shortage.

* To enforce all Alabama laws without favoritism, prejudice or political considerations.

* To continue and improve efficiency of present State Parole and Probation system.

* To aid in keeping and bringing in new industries.

* To foster, encourage and assist local governments on all pressing problems.

* To furnish a type of state administration to inspire confidence and cooperation of all classes.

* To confine sale of liquor solely to state stores; establish temperance education agency, and respect right of people to vote on all matters concerning their well being.

STEVENS-BARKER

A marriage of much interest to their many friends is that of Miss Andrea Stevens and Mr. Charles Barker, which was solemnized at a beautiful ceremony Sunday, March 19, at 2:30 p. m., in the presence of a large assemblage of friends and relatives at Zion Chapel Church. Rev. B. F. Pierce, of Opp, a close friend of the family, officiated, using the impressive double ring ceremony.

The vows were spoken before a background of ferns and white blossoms used effectively with candles, against the altar.

The music was presented by Miss Noreen Sanders, who played Lohengrin's wedding march, "To A Wild Rose" was played during the ceremony.

Miss Gladys Stevens, of Columbus, Ga., served her sister as maid of honor, wearing navy blue crepe. George Barker attended his brother as best man. The bride entered on the arm of her brother, Sidney Stevens, who gave her in marriage. For her marriage she wore a two-piece suit of aqua blue. Her flowers were white carnations in corsage bouquet. After the wedding the bride's parents entertained with a reception at their home.

Mr. Barker is the younger daughter of Mr. and Mrs. John Stevens and was a member of the graduating class of Elba High School in 1944. For the past year he had held a position in Washington, D. C. Mr. Barker attended Elba High School for a number of years and has been in the Army of forces, having spent 30 months overseas. Late in the afternoon the couple left for a short wedding trip, after which they went to Columbus, Ga., to make their home.—Contributed.

How the prayers of one woman were answered—and their lives saved.

Mr. and Mrs. Kimmie Dorsey and Jake Bonneau were recent visitors to Nashville, Tenn.

Among the Elbians who left yesterday for Birmingham to attend the annual meeting of the Alabama Education Association were: Mr. and Mrs. A. C. Dunaway, Miss Eunora Parry, Mrs. J. W. Kendrick, Mr. T. B. Bryan, Miss Jessie Lee, Mrs. Roberta Childs. The meeting will continue through Friday.

Cpl. James N. Hudson, formerly of Jack, Ala., has been discharged from the Air Corps after two years and seven months of service. Cpl. Hudson is the son of Mr. and Mrs. B. H. Hudson, now living at 4509 Holly Ave., Columbus, Ga.

While the country as a whole plans to reduce the number of turkeys grown this year, Alabama farmers plan to increase turkey production by 2 per cent.

GALIMORE BROTHERS WITH ARMY IN JAPAN WRITE INTERESTING LETTER

Dear Editor:

Want to write a few lines to all the folks back home. I hope this finds everybody doing fine. Guess everyone is getting ready to start farming.

My brother and I were surprised February 6th when we met an Elba man for the first time since we have been overseas. We had been in England, France, Germany, Panama and the Philippines before coming here to Hoppe Island in Japan, where we met Green, who lives on Smith Avenue. During a six-hour conversation we discovered we had been to lots of the same dances at home.

While in England we slept in the same warehouse with our brother, Leo Galimore, and crossed the English Channel in the same convey with him without even seeing him. Leo went to the States Army and we went to the Seventh and never did meet.

We hope the boys returning home are having a good time, for the good times they missed while overseas. We are hoping to come home soon. Will sign off for now.
